# AgEducation

course syllabus

## Student Expectations:

1. **Be prepared.** Students are expected to bring their Ag binder, notebook/loose leaf paper, a pen or pencil, and a charged computer to class each day.
2. It is the **student's responsibility** to obtain make-up work for days absent. Students will have one day plus the number of days absent to turn in missed work. All missed work can be found online or from your instructor. **Stay updated on Skyward.**
3. This course is designed to be a hands-on course with a large amount of time working on labs, projects or agriculture techniques. Since some labs are difficult to recreate, absence should be avoided if possible, especially on Wednesdays and Thursdays during designated lab days.
4. Students are expected to work in a manner that is respectful of everyone in the classroom with the learning and safety of others as well as themselves to be of top priority at all times. Respect one another's opinions and listen to each other as a professional team member. Soft skills will suffer significantly if you are late in completing assessments.
5. Students are expected to be productive and always strive to work to the best of their ability.
6. **Be punctual.** Students are to be in their seats when the bell rings and ready to get to work. If a student is tardy three or more times, he/she will be issued a detention to make up time.
7. **Participate!** Group work is a part of this course. Lab groups will be assigned but students will have the opportunity to work with a variety of people throughout the class. It is important that each student do his/her part in order to have a successful lab and a good final product.
8. Check the white board and online for instructions each day.
9. **No food or drink** will be allowed in the classroom without the direct permission of an instructor.
10. Written assignments must be completed on your own unless otherwise instructed.
11. Cell phones, iPods, mp3 players and any other cellular or digital device that is not a requirement for class should be left in your lockers. If you forget to leave them in your lockers we do not want to see them. There is a rack you can leave them in.
12. All students are expected to follow the Oconto Falls High School Student Handbook.

## Consequences:

Failure to follow expectations will result in a detention. If multiple issues arise the student will be referred to the high school office. Any severe offense will be grounds for immediate referral to the office.

By signing below, \_\_\_\_\_ (print clearly) understands the expectations and procedures to be followed in the Agriculture and Life Science Department. Furthermore, he/she also understands the consequences.
